EcoLogicProject

SCIENCE / STEWARDSHIP / SOLUTIONS

PROFESSIONAL CAPABILITY STATEMENT

Science. Strategy. Solutions for a Changing World.

Scientific expertise. Collaborative thinking. Meaningful outcomes.

Founded in Santa Cruz, California, in 2017, EcoLogicProject is an interdisciplinary environmental science and advisory initiative connecting scientific research, technical communication, and practical problem-solving across California, Brazil, and international research communities.

OUR PROFESSIONAL CAPABILITIES

01

SCIENTIFIC PUBLISHING & MANUSCRIPT DEVELOPMENT

Manuscript assessment, scientific editing, journal-readiness review, publication strategy, and clear communication of complex research.

02

RESEARCH DEVELOPMENT & GRANT ADVISORY

Research concept development, proposal review, funding alignment, project planning, and guidance for collaborative initiatives.

03

ENVIRONMENTAL SCIENCE & TECHNICAL CONSULTANCY

Advisory support for coastal and marine research, ecological monitoring, environmental assessment, conservation, and restoration.

04

INTERNATIONAL RESEARCH COLLABORATION

Support for cross-institutional relationships, scientific exchange, and research cooperation between California, Brazil, and international partners.

HOW WE ADD VALUE

We combine scientific understanding, clear communication, and practical strategy. Every engagement begins with your objectives, a thoughtful assessment of needs, and a tailored scope of work grounded in scientific integrity.

Let's explore what's possible.

What scientific or environmental challenge can we help you solve?
